Mountain Majesty Chalet

Located just 5 miles southeast of Pagosa Springs off Highway 84 in Holiday Acres, the Jackson's Mountain Majesty Chalet is a secluded mountain home beautifully decorated with lodge furnishings and elk trophies. The chalet is fully furnished with everything that guests would need for the perfect mountain vacation getaway.

Nestled peacefully in the ponderosa pines on top of a high ridge, guests can enjoy magnificent views of Square Top Mountain, Navajo Peak and V-Rock to the south and Pagosa Peak to the north, abundant wildlife, and bright stars of the night sky from the chalet's wrap around decks on three sides and the balcony off the loft. The soothing sounds of the San Juan River at the base of the ridge provide serenity, tranquility and great relaxation.

Without leaving the chalet property, guests can enjoy countless soaks in the chalet's hot tub, playing ping-pong and/or pool on the chalet's game table, cooking on the outdoor gas grill, bird watching, sitting out on the decks and viewing the mountains, river, and wildlife, taking a walk, catching a nap, making "SomeMores" at the outdoor fire ring, taking in the spectacular sunsets from Jackson Point, and stargazing at night.
